TEKTREK

TECH SHORTS

BUILT FOR DIVERS. ENGINEERED FOR PERFORMANCE.

The waist strap with buckle is positioned securely on the left side to avoid interference with BCD or harness buckles.

Two small pockets with durable YKK® zippers, each featuring two internal bungee loops for secure attachment

Aluminum drainage holes on the bottom and sides to allow fast water release.

Interior mini-pocket for slates or wet notes, with its own bungee loop.

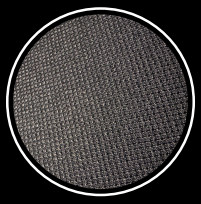

2 large pockets are made with durable non-neoprene material for strength and abrasion resistance

TEKTREK
TECH SHORTS

BUILT FOR DIVERS. ENGINEERED FOR PERFORMANCE.

Back/butt and crotch areas feature reinforced protective panels to prevent damage.

Durable 5mm Flex Neoprene Construction

YKK® zippers with easy-grip puller for smooth underwater use, even with thick gloves.

Each side pocket includes:

- Two stainless steel D-rings for secure equipment attachment.
- Elastic bungee loop inside for holding gear in place.

Hot glue tape is applied on stitch cross and connection areas for maximum durability at high-stress points. This targeted reinforcement ensures strength while maintaining neoprene flexibility and comfort.

TEKTREK SIZE GUIDE

Waist:
The circumference around the narrowest part of the torso, above the hips.

Hip:
The circumference around the widest part of the hips and seat.

Length:
The full vertical length of the shorts from the waistband to the bottom hem.

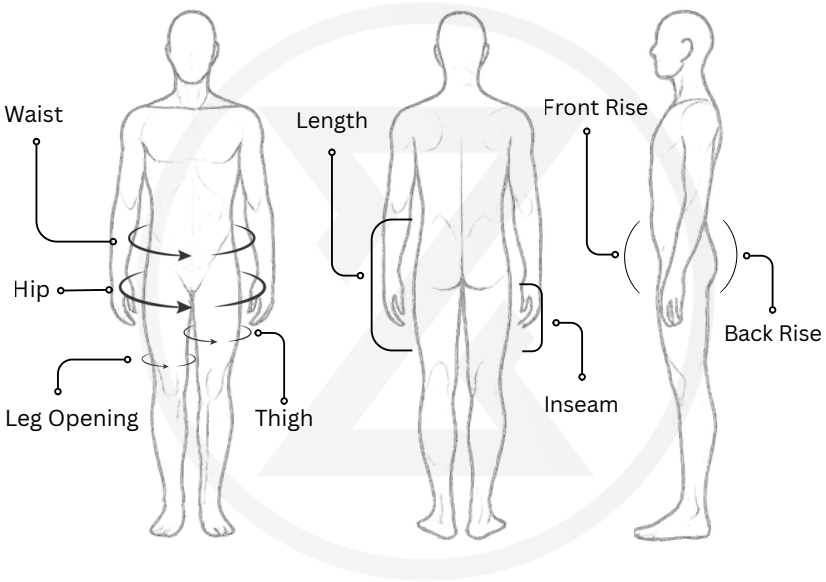

Inseam:
The inside leg measurement from the crotch seam down to the bottom hem.

Thigh:
The circumference around the widest part of the upper leg.

Front Rise:
The measurement from the top of the front waistband down to the crotch seam.

Back Rise:
The measurement from the top of the back waistband down to the crotch seam.

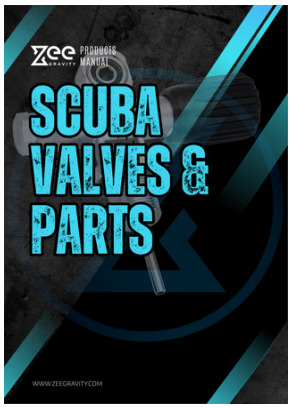

Leg Opening:
The circumference around the bottom opening of the shorts.

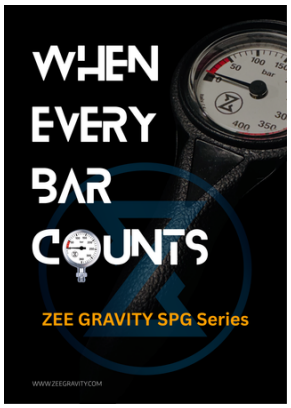

"Please note: If you plan to wear the shorts over a wetsuit, make sure to consider the wetsuit thickness when measuring your size."
